FREEMAN'S CHLORODYNE.

The Original and only True.
A SURE PREVENTATIVE OF INFLUENZA.

DISCOVERED and invented by Richard Freeman in 1844. Introduced into India in 1850, and subsequently into the Australasian Colonies, Egypt, China, and every other part of the HABITABLE GLOBE.

In the following diseases, no matter in what part of the world they are found, FREEMAN'S CHLORODYNE is a special and specific remedy: diarrhoea, ague, dysentery (both acute and chronic), ardent, dengue and all other kinds of fever, cramp, colic, gout, neuralgia, rheumatism, wind-stroke, sore throat, influenza, whooping cough, bronchitis, asthma, epilepsy, hysteria, spasms, sun-stroke, convulsions, sciatica, lumbago, cholera, and yellow fever.

Freeman's Chlorodyne allays the irritation of fever, soothes and strengthens the system under exhaustive diseases, restores the deranged functions, stimulates healthy action of the secretions of the body, gives quiet and refreshing sleep, and marvellously prolongs life. It may be taken by old and young, at all hours and times, according to the directions.

The great characteristic of FREEMAN'S CHLORODYNE is its marvellous power to assuage PAIN of every kind, which no other preparation sold under a similar name possesses in anything like the same degree, has attracted the attention of sufferers in all parts of the world.

One of the most marked symptoms of CANCER is the PAIN—pain of a most severe, intermitting, neuralgic sort, gradually increasing in severity, felt in the tumour itself as a sharp, stabbing or burning sensation. Freeman's Original Chlorodyne is now acknowledged to surpass all other known remedies in allaying the pain of cancer. Mr. Freeman's Pamphlet on the treatment and cure of cancer will be forwarded post free.

Manufactured by the Sole Inventor, RICHARD FREEMAN, Pharmacist, 70, Kennington Park Road, London, S.E.
Sold by Chemists and Patent Medicine Dealers in all parts of the world, in bottles, 1s. 1½d.; 2-oz., 2s. 9d.; 4-oz., 4s. 6d.; half-pints, 11s.; and pints, 20s. each.

N.B.—Lord Chancellor Selborne, Lord Justice James, and Lord Justice Mellish, decided in favour of FREEMAN'S ORIGINAL CHLORODYNE, and against Brown and Davenport, compelling them to pay all costs in the suits.—See Times of July 21st, 1873.

IT MAKES WRITING EASY.

Throw pens and pencils to the dogs—they are dull tools these days. As well reap with a sickle—ride in post-chaises—burn tallow dips! THE

NEW 1893 ROYAL BAR-LOCK TYPEWRITER

ranks with telegraphs, telephones, and electric lights, with those who keep pace with the world. The perfection of modern invention, and the STANDARD MODERN Writing Machine.

READ!

The Bar-Lock Typewriter began its career only three or four years ago, in the face of apparently deep-rooted preferences and formidable competition. On superior merit alone it has overtaken and passed all competitors—and to-day stands at the head of the list in all respects. Such a record is only true of remarkably meritorious articles.

SCREW-STOPPER INKSTAND

PERFECT ACTION GUARANTEED.

CONSTRUCTION.—The neck of the Ink-well W is clasped by the India-rubber Collar R, through which moves the Screw-Stopper S, forcing the ink into the dipping cup at D.

ADVANTAGES.—No Blotting, No Inky Fingers, No Ink Wasted, No Evaporation. The dipping cup is most easily wiped out, and the little ink it contains when in use is all that can be spilled if the pot is upset. The ink-well need not be washed when replenished. The pen cannot strike the bottom. It is simple in its construction, and each of the three parts can be replaced separately in case of accident. Fresh and clean ink always ready.

PRICES.—Cut glass Ornamental Porcelain Screw Stopper and Nickel Rack, 3s. each. Plain-glass, Plain Porcelain Screw Stopper and Black Rack, 2s. each. Oak or Black Block, 1s. each.
