I came back from spending a fortnight at the Graystone on the 20th. I was glad to get away from the heat & locusts here. The locusts have cleared all the trees, excepting paradises of leaves, however they have gone now. One horse from the Bandurra went up to the hills with me & we found Mr & Mrs Young guests of the Honglas there. We played a lot of golf the first week & there were tennis parties & a couple of dances at Graystone & a children's party at Keydon. Some of us went for a long ride up & over the hills. One of a guide we took a car and a waiter at for lunch, eight & a half hours riding we got some glorious views & enjoyed it thoroughly although tired at the end. There was an excellent picnic dinner at the Ranch, one fifty people were there. Too many to state. Mr May, Frank & Jimmy Watt, Service Jim, Fran & Frankie Bell, Marion, George, Jimmy & Betty, & Clara were all up there. Quite a family gathering. The Giffords have gone up for ten days holiday. Must stop with heaps of love from your Mother
